

## ABOUT US

**At Glasgow by Drone, we specialize in delivering stunning aerial visuals that elevate how your business is seen. Our experienced team captures breathtaking photography and videography that transforms the way you showcase your brand, products, and services. We blend creativity with cutting-edge drone technology to highlight your business from dynamic, eye-catching angles, helping you stand out in a competitive market.**

## OUR SERVICES

We offer expert aerial photography that captures vivid, high-quality imagery, ideal for promoting commercial properties, events, tourism ventures, and marketing campaigns. Our drone videography creates cinematic, engaging content tailored for promotional and corporate use, giving your brand a professional edge. Whether you're hosting a live event or launching a new product, our unique coverage ensures every moment is captured in a compelling and memorable way. We also provide safe, efficient, and cost-effective aerial inspections, making it easier to assess properties or infrastructure with clarity

## WHY CHOOSE US

**Our team of professional pilots and creative videographers is dedicated to excellence in every project. With the latest drone technology at our fingertips, we consistently deliver high-quality results that reflect the unique identity of your business. Backed by a proven track record and satisfied clients across a range of industries, Glasgow by Drone is a reliable and trusted partner. Our services are flexible and fully customizable, designed to meet the specific needs of your project, no matter the size or scope.**

## EQUIPMENT

We proudly operate using the latest drone technology, including the DJI Mavic 3 Pro, DJI Air 3S, and FPV DJI Avata 2, ensuring unmatched clarity, precision, and creative flexibility. These industry-leading drones allow us to capture everything from cinematic fly-throughs to ultra-detailed inspections, adapting to the unique demands of each project.

As a fully licensed and insured drone operator, you can have full confidence in our compliance with UK aviation regulations and commitment to safety on every flight. Whether flying in urban environments, around crowds, or over private property, we adhere to strict safety protocols and operate under current CAA (Civil Aviation Authority) guidelines.
